**CUSTOMER SIGNATURE:** \_\_\_\_\_ **DATE:** \_\_\_\_\_

- Note breaker boxes cannot go on end walls. Wiring ran without outlets or light bases will require an extra charge. We cannot use standard outlets for exterior.
- If customer adds more than the standard 4 outlets, you must add additional breakers. Each breaker will support 2 receptacles. Breaker boxes are lug boxes (no main breaker) unless upgraded to a 200 amp box.
- Outlets will be placed on closest stud.
- Customer is responsible to have Licensed electrician connect power to breaker box.
